COMMENTS

1. Earnings

The comparative figures have been restated to eliminate the results of operations disposed of or closed down during the course of the Group's rationalisation exercise which was referred to in the last Annual Report. This has resulted in raising the comparative earnings per share for the six months to 30 September 1985 to 41,6 cents, compared to the 39,2 cents previously published.

The Group's performance for the six months under review improved substantially compared to the same period last year. Turnover increased by 16 % from R1 149,3 million to R1 328,8 million and broadly in line with this, trading profit increased by 15 %. The Premier Food Industries group produced improved results compared to the previous year and significantly increased their contribution to attributable earnings. The decrease in interest rates, combined with the strict control of working capital, the elimination of foreign exchange losses and the positive effect of last year's Rights Issue reduced overall finance costs from R48,3 million to R33,0 million, resulting in a profit before tax increase of 104 %. These improvements were diluted by a higher tax charge.

The improved dividend income and equity accounted profits are due to the excellent results of The South African Breweries Limited, which increased its interim dividend to 12,5 cents (1985: 10 cents) on a 56 % rise in earnings per share.

Taking all this into account, the attributable earnings of The Premier Group rose by 89 %. Due to the additional number of shares in issue, the increase in earnings per share is 69%.

2. Financial position

The increase in borrowings of R142,6 million since the financial year end, is mainly due to the usual seasonal increase in working capital requirements in the industries in which the Group operates, as well as the capital expenditure on the new wheat mill being erected in Vereeniging. The ratio of borrowings to shareholders' funds has reduced from 35 % last year to 32 % as at 30 September this year.

3. Extraordinary items

Capital profits (arising mainly from the disposal of the Group's packaging interests) amounted to approximately R7 million and have not been included in attributable earnings.

4. Prospects

On the basis that the upswing in the economy continues, it is expected that the Group will show a satisfactory improvement in earnings for the year as a whole. However, shareholders should appreciate that the rate of increase for the year will not be a high as that achieved in the interim figures now published.

5. Dividends

An interim dividend of 36 cents per share has been declared, an increase of 13 % over the previous year.

In terms of the Company's articles of association and the rights attaching to the Preferred Ordinary shares an interim dividend of 67,5 cents per share (1985: Nil) is payable to the holders of those shares.

On behalf of the Board.—A. H. Bloom, Chairman, P. G. A. Wrighton, Deputy Chairman.
