CHIEF EXECUTIVE OFFICER

NAMPOST TARIFF ADJUSTMENTS FOR 2006/7

Namibia Post Ltd wishes to inform you that its annual tariff adjustments will become effective on 1 October 2006, in line with the commencement of its new financial year.

During previous years, NamPost committed itself to future increases that are broadly in line with inflationary expectations (CPI) and the cost of doing business, generally, especially on business lines with an international component. The latter specifically relates to mail to and from international destinations. NamPost anticipates CPI to range between 5% and 7% over the next 12 months, but with higher increases in the national transport sector as a result of higher, and everescalating, energy costs due to the increasing oil price.

For this reason, the basis of the tariff adjustments this year is an average increase of 6% across the board, notably in the postal tariffs and services.

The following are the main proposed price changes in the products and services offered by NamPost for the 2006/7 financial year:
