No. 42.] [11th June, 1920.
APPOINTMENT.

The Administrator has been pleased under the provisions of section 3 of the Land Survey Proclamation 1920 to appoint Alexander Gustav Landsberg to act as Surveyor-General for the Protectorate of South-West Africa during the absence on duty of H. E. Schoch, with effect from the 14th June, 1920.

No. 43.] [11th June, 1920.

The Administrator has been pleased, in terms of section one hundred and eighteen of the Administration of Estates Act 1913, of the Union Parliament as applied to the Protectorate by the Administration of Justice Proclamation No. 21 of 1919, to approve of the regulations contained in the schedule hereto in regard to the remuneration to be paid to Sworn Appraisers.

SCHEDULE.

TARIFF OF REMUNERATION OF SWORN APPRAISERS.

Every Sworn Appraiser is entitled to demand and receive in respect of every appraisement made by him a reasonable compensation to be assessed and taxed by the Master of the High Court according to the following tariff provided that the Master may, in his discretion, authorise a variation from the tariff in special cases if he shall see fit.

1. FEES FOR APPRAISEMENT.

(1) One guinea for every hour or fraction of an hour whilst actually occupied in making one continuous appraisement.

(2) For appraisements of property under the value of £100 a fee of ten shillings and sixpence will be allowed.

(3) Where an appraisement of property has been made from intimate expert knowledge and the Master is satisfied that, regard being had to the nature of the valuation, a remuneration upon the basis of time would not sufficiently compensate the appraiser, he may tax him a special fee not to exceed in any case £1 for each £1000 of the appraised value of the property up to £10000, and thereafter 10/- for each £1000.

2. TRAVELLING EXPENSES.

In addition to the above the following travelling expenses will be allowed, provided that the Master may in his discretion authorize a variation from the tariff in cases in which he is satisfied that the tariff is insufficient to cover the actual transport expenses.

(1) For valuations made within a two-mile radius from the centre of any town, the necessary cab hire only.

For valuations made outside of the two-mile radius, an inclusive allowance of 10/- for every six miles travelled where the appraiser provides his own conveyance. Where a conveyance is provided by the client or the appraiser travels by rail, he will be entitled only to a personal allowance while travelling of 5s. per hour or fraction of an hour not exceeding £2 a day in addition to his railway fare.

(2) Where a journey is undertaken for the purpose of appraising property belonging to several owners, the expenses of one journey only may be charged and should be apportioned to the several owners.

3. TAXATION OF BILLS.

All charges for valuations made by Sworn Appraisers must be taxed by the Master before payment thereof is demanded. When submitting their accounts for taxation, appraisers should attach a copy of the appraisement, and full particulars should be given of the distance actually and necessarily travelled, if any; the time occupied in travelling and the time of detention, if any; and it should be stated that the journey was undertaken for the purpose of the appraisement. The time occupied in actually making the appraisement should also be stated.

Revenue stamps representing one shilling in every £1 or fraction of £1 of the charge should be forwarded in payment of the taxing fee.

No. 44.] [11th June, 1920.

The Administrator has approved of the Rule hereto appended, framed by the Judge of the High Court of South-West Africa under the provisions of section 3 (5) of the Administration of Justice Proclamation, 1919, and of section 2 of the Rules of Court Proclamation, 1920.

RULE OF THE HIGH COURT OF SOUTH-WEST AFRICA.

27. Item 2(a) of the Tariff of Fees of Deputy Sheriffs contained in Rule 482 of the Cape of Good Hope Provincial Division of the Supreme Court of South Africa is hereby amended by increasing the amount of travelling allowance per mile or fraction of a mile from one shilling to one shilling and six pence.

N. B

Holdings 1--37 are not surveyed but only compass-beaconed, and will be allotted according to the present beacons erected on the ground which do not include any portion of the river bed. Each farm will, however, be surveyed to include a portion of the river bed. Until survey is completed allottees are advised not to make any permanent improvements in the river bed as Government will under no circumstances compensate them for any improvements should it on survey, appear that the particular portions of the river bed on which such improvements have been effected, fall outside the boundaries of their farms.

As the survey in connection with holdings Nos. 1--37 has not yet been completed, the areas are approximate only, and consequently the purchase price, rentals and instalments of purchase price are liable to alteration, when the exact areas and survey fees are known.

Particulars of holdings:--

1--24. Situate on the Nosob River below the junction of the Black Nosob and the White Nosob and from 50 to 100 miles south of Gobabis which is the nearest township. Strictly speaking, Rehoboth is the nearest railway station, but intending applicants proceeding on inspection of these farms are advised, in view of the existing transport facilities, to make Windhuk the first point of their itinerary.

(Maps showing these farms can be viewed at this Department's office in Leutwein Street, Windhuk).

The holdings are suitable for all classes of stock with the exception of horses which are liable to horse-sickness during rainy seasons. With a very few exceptions, there is no surface water, but water can easily be found at no great depth in the bed of the Nosob River, and generally facilities exist for storing water. Native labour is scarce; the climate is fairly healthy.

There is a small dwelling house and a well on holding 2 (De Jager No. 279).

There is a three-roomed dwelling-house and a well on holding 3 (Hoaseb No. 27).

The following improvements valued at £110 approximately exist on holding 4 (Chamasaris No. 23).

4 roomed dwelling-house. Well 4½ metres deep. Sheep dip (plastered with cement). Wire kraals.

The successful applicant for holding No. 4 not being the constructor of these improvements, shall pay therefor in cash an amount to be determined by the Minister of Lands.

On each of holdings 9 and 12 (Boshoff No. 10 and Hoagosgeis No. 3) there is a small Hartebeest Hut.

25--37. Situate on the Epikuro River about 50 miles north of Gobabis which is the nearest township and about 150 miles east of Windhuk which is the nearest railway station.

There is no surface water, but water can easily be found at no great depth in the bed of the Epikuro River and generally facilities exist for storing water. Suitable for all classes of stock except horses which are liable to horse-sickness during rainy seasons. Mealies and kaffir-corn can be grown. Native labour is scarce; the climate is fairly healthy.

38. Stock farm with frontage on the Schaap River. Some trees and bush; healthy; native labour scarce; situate 30 miles east of Rehoboth.

As the survey of this holding has not yet been completed, the area and survey fees are approximate only.

Should, on the survey being completed, it appear that the area of the farm is more than 5% greater or less than the approximate area given above, the purchase price, rentals and instalments will be increased or decreased accordingly.

On this holding there is a borehole with windmill piping and fittings as also a galvanised iron reservoir with a capacity of 30 000 gallons which are not included in the valuation and the ownership in which will remain vested in the Government.

The lease and title to be issued in respect of this holding will be subject to a perpetual servitude in favour of bona fide travellers entitling them to access to the said borehole and reservoir and to the full use of water therefrom for themselves and their animals. Government also retains right of access for its servants to the said borehole and reservoir for the purpose of maintenance and repairs.

If the allottee is prepared to undertake to maintain the windmill and reservoir in a proper state of repair Government will be willing to allow him to use portion of the water in the borehole and reservoir on conditions to be agreed upon.

39. Suitable for all classes of stock. Davib River traverses the holding. Water in well with windlass in the river bed. Native labour scarce; healthy; situate 14 miles north-west of Usakos which is the nearest township and railway station.

N.B. The ownership of land in the Protectorate does not include the ownership in minerals and precious stones in, on or under such land. All the above farms are open to prospecting and pegging by any person duly authorised thereto in accordance with the provisions of the Imperial Mining Ordinance 1906, as amended by Proclamation No. 24 of 1919. The holder of a prospecting licence over any of the above farms is entitled to grazing and water for stock required in connection

with his prospecting operations, as also wood, in so far as it is available without materially interfering with the working of the farm (Section 12 of above Ordinance) and subject to payment of compensation as provided in the Mining Law.

General Conditions—

In the event of the Government being required, in terms of any law relating to fencing in the Protectorate, to contribute towards the cost of fencing the boundaries, or any part thereof, of any of the holdings advertised in this notice, or to accept liability for the payment of such contribution prior to the allotment of the holding, the successful applicant shall, on allotment being made to him, assume liability for the payment of such contribution. The amount of such contribution shall be paid by the allottee to the Government in cash, or at the option of the allottee it may be added to the valuation of the holding, in which case the rentals, payments and instalments of purchase price shall be increased accordingly. The successful applicants for any of the holdings on which the boundaries or part thereof are fenced, shall accept liability under any law relating to fencing in the Protectorate, for any amounts which may be claimed by adjoining owners in terms of the said law.

In the event of boreholes being completed and hand-pumps erected on any of the holdings before the date of allotment thereof, the cost of the boring operations and pumps will be added to the valuations of the holdings and the rentals and instalments of purchase price will be increased accordingly.

In the event of an allottee making application for a borehole to be sunk on his holding and a hand-pump to be erected thereon, and of such application being approved by the Minister of Lands, the cost of such borehole (exclusive of transport, fuel, and water, which must be borne by the allottee) and of such hand-pump will be added to the valuation of the holding, and the half-yearly rental and instalments of purchase price will be increased accordingly as from the date of the completion of the work.

A clause will be inserted in the leases which it is proposed to issue in respect of holdings on which boreholes may be sunk before or after allotment thereof, giving the Government access to and the right to take water from the boreholes for drilling purposes for a period of five years from the dates of the leases.

It will be a condition of lease that the successful applicant for any of the above holdings on which boreholes exist or may be sunk previous to allotment will be held responsible as from the date of allotment or of completion of the work for the proper care and maintenance of the borehole or boreholes on his holding, and shall be liable for any damage caused thereof. He must, therefore, on no account raise water without proper pumping machinery. Inquiries as to the most suitable machinery to be utilized in connection with any borehole should be made to the Boring Inspector, Irrigation Department, Windhuk, by the successful applicant before proceeding to erect pumping machinery.

General Remarks—

The lease to be issued will contain conditions relative to residence, improvements, fencing, outspans, roads, and such other conditions as are usually inserted in agricultural leases granted under the Land Settlement Act, No. 12 of 1912, as amended by the Land Settlement Act Amendment Act, No. 23 of 1917 and Proclamation No. 14 of 1920.

The rent paid during the lease period of five years is not deducted from the purchase price in the event of the option to purchase being exercised.

The Department has made every effort to render as accurate as possible the information given in this notice, but will not be responsible for any inaccuracies should such exist.

Applicants are recommended in their own interests, personally to inspect farms before formally applying therefor. No railway or transport concessions are given by the Government in connection with the inspection of holdings.

After the expiry date of this notice intending applicants should ascertain from the Department of Lands which holdings are still available before proceeding to inspect any of them.

Occupation can be granted immediately on allotment, unless other provision be made in the letter of allotment.

All applications must be submitted on the prescribed form, which can be obtained from the magistrates of the districts in which the farms are situate, or from the Secretary for Lands, Pretoria, or P.O. Box 297, Windhuk.

The Department has a staff dealing specially with applications and inquiries for land, and prospective settlers desirous of obtaining information with regard to land settlement in South-West Africa are advised to apply for such information direct to the Department of Lands, Union Buildings, Pretoria, or P.O. Box 297, Windhuk.
