ANALYSES OF MINERALS.

It is hereby notified for general information that as from the 15th August 1927, chemical examinations, analyses, and assays of minerals may be obtained under the following conditions and in accordance with the subjoined tariff charges.

This tariff is intended specially for PROSPECTORS AND SMALL MINERS, and will NOT be available for parties financially able to make their own arrangements.

I. REGULATIONS REGARDING THE SUBMISSION OF SAMPLES.

1. The right is reserved of refusing such samples as may not be considered of sufficient importance to warrant analysis.

2. Every sample should weigh between 1 and 3 lb if possible.

3. The samples must be plainly labelled, both inside and outside the package, with the name and address of the sender and if more than one sample is submitted at the same time whether in the same or separate packages each shall be clearly marked with a number inside and outside for purposes of identification. At the time the samples are despatched there should be forwarded by post a letter giving information of despatch of samples and name and address of the sender. The letter should further contain the number and date of the sender's prospecting licence, if any, the number of the prospecting claim or name and number of the farm from which each sample has been taken and should give full particulars of the nature and source of origin of the sample, the object of the analysis or examination, and precisely what metal or constituent the applicant wishes to have determined.

4. Samples must be carefully packed so as to obviate any risk of damage during transit, and will, if marked "Samples of Rock for Analysis", be accepted for transmission free of cost to the Inspector of Mines, Government Buildings, Windhoek, by (a) the station master at any railway station of the South African Railways; (b) the postmaster at any post office, provided that the packet does not exceed 3 lbs in weight, that the samples are well wrapped up to prevent injury to other mail matter, and that the cover is plainly marked "O.H.M.S."

5. Samples should, whenever possible, be forwarded uncrushed.

6. Samples will not be returned to the sender unless request to that effect is made at the time of sending and the cost of the return is prepaid.

7. Where the requirements of these regulations are not complied with, the sample will be stored at the consignee's risk, and, if not removed by him within one month from the date of notification to that effect, it will be destroyed.

8. Samples will be received for one or both of the following purposes:

- (a) Identification of minerals or information whether a particular specimen contains any mineral or metal of value.
- (b) Quantitative determination, either of one or more designated constituents of the sample, or of all the constituents.

Examination under sub-head (a), not requiring an analysis will as a rule be performed free of charge, but no analysis or assay will be undertaken until the prescribed fees have been remitted. If the amount paid does not cover the charge for the analysis, the consignee will be notified accordingly, and the analysis will not be carried out until the full amount of the charge has been paid.

9. No responsibility or liability in connection with any report of analysis will attach to the Administration or to any of its officers.

10. Reports upon or results of any analysis may not on any account be used for purposes of advertisement or trade, nor in any dispute or legal action between contracting parties, or between individuals and the Government.

11. All information in connection with samples of minerals will be treated by the Administration as confidential.

Die sertifikaat moet aan die hoofonderwyser of die hoof van die skool op of voor die terugkoms van die pasiënt na die skool verloon word. Waar daar nie 'n geneskundige gesondheidsbeampste is nie, maar 'n genesheer die geval behandel het, moet 'n sertifikaat van dieselfde strekking van hom verkry en verloon word.

Voordat by toegelaat word om na die skool terug te gaan, moet die pasiënt in elke geval 'n bad met seep en warm water hê en skoon klerre aantrek.

SKEIKUNDIGE ONDERSOEK VAN MINERALE.

Hiermee word ter algemeene kennis gebring, dat vanaf 15 Augustus 1927 skeikundige ondersoekings, analiese en toetsings van minerale, onder die volgende voorwaardes en ooreenkomstig die bygevoegde tariefpryse, gemaak word.

Hierdie tarief is spesiaal bedoel vir PROSPEKTEERDERS EN PARTIKULIERE MYNWERKERS, en is NIE beskikbaar vir liggame wat in 'n finansiële posisie is om hulle eie reëlings te kan maak nie.

I. REGULASIES IN VERBAND MET DIE INSENDING VAN MONSTERS.

1. Die reg word voorbehou om sodanige monsters te weier wat nie van voldoende belang beskou word om die ondersoek te regverdig nie.

2. Indien moontlik, behoort ieder monster tussen 1 en 3 lb te weeg.

3. Die monsters moet buitekant en binne van 'n etiket voorsien wees, waarop die naam en adres van die insender duidelik verskyn. As meer as een monster tegelyk, of in een of in afsonderlike pakette, ingestuur word, moet elkeen binne en buite vir die doel van identifikasie met 'n nommer gemerk word. By afsending van die monsters moet ook 'n brief deur die pos gestuur word, waarin informasie van die afsending en naam en adres van insender vermeld word. Verder moet die brief die nommer en datum van die prospekterlisensie van insender, as daar een bestaan, die nommer van die prospekterteikem of die naam en nommer van die plaas, waarvandaan elke monster afkomstig is, bevat, en moet volledige besonderhede van die aard en herkomsplek van die monster en die doel van die analiese of ondersoek aangee, asook presies watter metaal of bestanddeel die applikant wil laat vasstel.

4. Die monsters moet sorgvuldig verpak word, om beskadiging tydens die vervoer te voorkom, en word kosteloos na die Inspekteur van Myne, Regeringsgeboue, Windhoek, vervoer deur (a) die stasiemeester van enige spoorwegstasie van die Suidafrikaanse Spoorweë; (b) die posmeester van enige poskantoor, mits die pakket nie meer as 3 lb weeg nie, die monsters behoorlik verpak is om skade aan ander postpakette te voorkom en die omslag duidelik gemerk is "I.S.M.D."

5. Waar moontlik, behoort die monsters nie-fyngestamp gestuur te word.

6. Die monsters word nie aan die insender teruggestuur nie tensy dit by toesending gepra word, en die terugsend-koste voornibetaal word.

7. Indien aan die voorwaardes van hierdie regulasies nie voldoen word nie, word die monster vir risiko van die sender opgebêre, en indien nie binne een maand na datum van kennisgewing daartoe deur houn verwyder nie, word dit vernietig.

8. Monsters word vir een of beide van die volgende doeleindes aangeeem:—

- (a) Herkenning van minerale of inligting of 'n bepaalde monster 'n waardevolle mineraal of metaal bevat.
- (b) Kwantitatiewe vasstelling, of van een of meer genoemde bestanddele van die monster, of van alle bestanddele.

Ondersoekings onder subhoof (a), wat geen analiese vereis nie, word gewoonlik kosteloos gedoen, maar geen analiese of toetsing word uitgevoer voordat die voorgeskrewe fooie betaal is nie. Indien die betaalde bedrag die koste vir die analiese nie dek nie, sal daarvan aan die sender kennis gegee word, en die analiese word nie uitgevoer totdat die volle bedrag van die koste betaal is nie.

9. Geen verantwoordelikheid of verpligting word deur die Administrasie, of enigeen van sy amptenare, in verband met enige rapport of analiese aanvaar nie.

10. Rapporte oor, of die resultate van, enige analiese mag onder geen omstandighede gebruik word vir handelsdoeleindes of vir adverteerdeleindes nie, nog by enige verskil of wetlike aksie tussen kontrakterende partye nie, of tussen private persone en die Regering.

11. Alle inligting in verband met monsters van minerale word deur die Administrasie as konfidensieel behandel.

Should no operations have been commenced at the date of allotment the allottee must notify the Senior Officer, Lands Branch, whether he desires boring operations to be under taken or not.

In view of the large number of applications which may be received for some of the farms in this notice, applicants are advised, in their own interests, to submit alternative applications giving the order of preference.

Should their first selections not be allotted to them, consideration will then be given to the alternative applications in order of preference.

The ownership of land in South-West Africa does not include the ownership in minerals and precious stones in, on or under such land. All the above farms are open to prospecting and pegging by any person duly authorised thereto in accordance with the provisions of the Imperial Mining Ordinance 1906, as amended by Proclamation No. 24 of 1919. The holder of a prospecting licence over any of the above farms is entitled to grazing and water for stock required in connection with his prospecting operations, as also wood, in so far as it is available without materially interfering with the working of the farm (Section 12 of above Ordinance) and subject to payment of compensation as provided in the Mining Law.

General Conditions:—

In the event of the Administration being required, in terms of any law relating to fencing in South-West Africa, to contribute towards the cost of fencing the boundaries, or any part thereof, of any of the holdings advertised in this notice, or to accept liability for the payment of such contribution prior to the registration of the lease, the successful applicant shall, on allotment being made to him, assume liability for the payment of such contribution. The amount of such contribution shall be paid by the allottee to the Government in cash, or at the option of the allottee it may be added to the valuation of the holding, in which case the rentals, payments and instalments of purchase price shall be increased accordingly. The successful applicants for any of the holdings on which the boundaries or part thereof are fenced, shall accept liability under any law relating to fencing in South West Africa, for any amounts which may be claimed by adjoining owners in terms of the said law.

In the event of boreholes being completed and windmills erected on any of the holdings before the date of allotment thereof, the cost of the boring operations and windmills will be added to the valuations of the holdings and the rentals and instalments of purchase price will be increased accordingly.

In the event of an allottee making application for a borehole to be sunk on his holding and a windmill to be erected thereon, and of such application being approved by the Administrator, the cost of such borehole (exclusive of transport, fuel, and water, which must be borne by the allottee) and of such windmill will be added to the valuation of the holding, and the half-yearly rental and instalments of purchase price will be increased accordingly as from the date of the completion of the work.

A clause will be inserted in the leases which it is proposed to issue in respect of holdings on which boreholes may be sunk before or after allotment thereof, giving the Government access to and the right to take water from the boreholes for drilling purposes for a period of five years from the dates of the leases.

It will be a condition of lease that the successful applicant for any of the above holdings on which boreholes exist or may be sunk previous to allotment will be held responsible as from the date of allotment or of completion of the work for the proper care and maintenance of the borehole or boreholes on his holding, and shall be liable for any damage caused thereto. He must, therefore, on no account raise water without proper pumping machinery. Inquiries as to the most suitable machinery to be utilized in connection with any borehole should be made to the Boring Engineer, Windhoek, by the successful applicant before proceeding to erect pumping machinery.

Issue of Government Grant:—

Administration Grants of holdings may, in special cases, with the approval of the Administrator, be issued before the expiry of a period of ten (10) years from the date of allotment. When a lessee after five years tenancy can satisfy the Land Board that the value of his holding with permanent and any substantial improvements exceeds by one fourth (but not in any case by less than £400) the total indebtedness No. 26 of 1923 to the Administration, section four of Proclamation No. 26 of 1923 enables the Administrator to issue a Government Grant and accept a mortgage bond for the total amount of the then remaining indebtedness.

Indien boorwerkzaamhede nog nie begin het op die datum van toekennings nie, moet die huurder die Moolampenaar, Afdeling van Lande, laat weet of hy 'n boorgat wil laat sink of nie.

Aangesien daar moontlik 'n groot aantal applikasies ontvang mag word vir sommige van die plase in hierdie kennisgewing, word applikante aangeraai, in hulle eie belang, om vir meer as een plaa applikasie te maak, en die orde van voorkeur aan te gee.

Indien hulle eerste keuse nie aan hulle toegeken word nie, sal hulle applikasies vir die ander keuse in orde van voorkeur dan in oorweging geneem word.

Die besitreg van grond in Suidwes Afrika sluit nie die besitreg van minerale en edelgesteentes, op of onder sulke grond in nie. Al die bogenoemde plase is oop vir prospektering en afpeming deur enige persoon behoorlik daartoe gemagtig ooreenkomstig die bepaling van die Imperiale Myn Ordinasie 1906, soos gewysig deur Proklamasie No. 21 van 1919.

Persone wat lisensie vir prospektering het oor enige van die bogenoemde plase, het ook aanspraak op weiding en water vir die vee nodig in verband met die prospektering as ook hout, in sover dit beskikbaar is sonder die werk op die plaaas groteliks te verstoer, (sien Artikel 12 van bogenoemde Ordinasie), en onderhewig aan betaling van skadevergoeding soos bepaal in die Myn Wet.

Die bedrag van sodanige bydraë moet deur die persoon, aan wie die plaaas toegeken word, in kontant aan die Administrasie betaal word, of kan in verkieping van die persoon aan wie die eiendoms toegeken is, by die waardering van die hoeve gevoeg word, in water geval die bydraë van die huur en paaiemente van die koopprys ooreenkomstig verhoog sal word. Geslaagde applikante vir enige van die hoeve, waarvan die grenslyne of gedeeltes daarvan onheilig is, sal verantwoordelik wees ooreenkomstig enige Omheiningswet in Suidwes Afrika, vir enige bedraë wat deur die eienaars van aangrensende eiendomme, kragtens die wet, geëis mag word.

Ingeval daar op enige van die hoeve boorgate mag voltooi wees en windmole opgerig is, vóór die datum van toekennings daarvan, sal die koste van die boorgate en van die windmole by die koopprys van die hoeve gevoeg word, en die huurgedeltes en paaiemente op die koopprys gevolglik verhoog word.

Ingeval die persoon aan wie die hoeve toegeken is, versoek dat op sy hoeve 'n boorgat inag gesink word en 'n windmole daarop mag opgerig word, en sodanige applikasie deur die Administrateur goedgekeur word, sal die koste van sodanige boorgat (behalwe van transport, brandstof en water wat deur die persoon moet betaal word) en van sodanige windmole by die koopprys van die hoeve gevoeg word, en die halfjaarlikse huurgedeltes en paaiemente op die koopprys, sal gevolglik verhoog word vanaf die datum van die voltooiing van die werk.

Een voorwaarde van die huurkontrak sal wees dat die suksesvolle applikant vir enige van die bogenoemde hoeve, waarop boorgate bestaan of wat vóór of ná toekennings mag gesink wees, vanaf die datum van toekennings of van voltooiing van die werk, verantwoordelik sal gehou word vir die behoorlike oppas en onderhoud van die boorgate, of boorgate, op sy hoeve en aanspreklik sal wees vir enige skade daaraan veroorsaak. Hy moet derhalve in geen geval sonder behoorlike pompmasjinerie daaruit water neem nie. Navraag betreffende masjinerie wat mees geskik is om gebruik te word in verband met enige van die boorgate, behoort deur die suksesvolle applikant by die Booringenieur, Windhoek, gedoen te word vóórdat enige pompmasjinerie opgerig word.

Uitreiking van Goewerments-Grondbriewe:—

Goewerments-Grondbriewe van hoeve kan in spesiale gevalle, met toestemming van die Administrateur, uitgegee word voor afluop van 'n termyn van 10 jaar na die datum van toekennings. Ná 'n huurder 'n hoeve vir 5 jaar gehuur het en die Landraad kan oortuig dat die waarde van sy hoeve en blywende verbeterings van deeglike aard meer as een-vierde van die totale skuld van die huurder aan die Administrasie bedra (maar in geen geval minder as £400), stel artikel vier van Proklamasie 26 van 1923 die Administrateur in staat om 'n Goewerments-Grondbrief uit te reik, en 'n verband te neem vir die totale bedrag van die skuld wat nog oorby.

ANTHRAX:

OKAHANDJA: Okamita.

Algemene Opmerkinge:—

Die huurkontrak wat uitgegee word sal voorwaardes bevat met betrekking tot die okkupasie, verbeterings, omheining, uitspannings, weë en sulke ander voorwaardes wat gewoonlik gestel word in landbou-huurkontrakte uitgereik onder die Kroongrond Nedersettingswet, No. 12 van 1912, soos gewysig deur die Nedersettingswet Wysigingswet, No. 23 van 1917, en enige verder Wysigings daarvan.

In die voorgestelde huurkontrak en die daarop-volgende Kroongrondbrief sal spesiale voorsienings gemaak word waardeer:

- (a) die Administrasie die reg sal hê om, teen betaling van skadevergoeding, enige hoeve, of enige gedeelte daarvan vir publieke doeleindes of 'n uitspanning terug te neem;
- (b) bestaande paale en deurgange, op die kaart aangegee of nie, vry en onbelemmerd sal bly, en die huurder van enige hoeve noodsaaklike paale ná en van die grond van aangrensende of naburige eienaars sal toelaat.

Ingeval gebruik van die opsie van aankoop gemaak word, sal die huurgeld wat gedurende die tydperk van die huurkontrak van vyf jaar betaal is nie van die koopprys afgetrek word nie.

Die Afdeling van Lande het alle pogings gemaak om die informasie, in hierdie kennisgewing bevat, so juis as moontlik te gee, maar sal nie verantwoordelik wees vir enige onjuistheid, wat mag voorkom nie.

Applikante word aanbeveel, in hulle eie belang om plase persoonlik te inspekteer, voordat hulle formele applikasie daarvoor indien. Geen spoorweg of ander transportkonsessies word deur die Administrasie in verband met die inspeksie van hoeve verleen nie.

Na die datum, waarop hierdie kennisgewing verstryk is, behoort applikante eers van die Afdeling van Lande te vernem watter hoeve nog beskikbaar is vóórdat hulle een daarvan inspekteer.

Onmiddellik na toekennig kan okkupasie toegestaan word, tensy in die brief van toekennig anders bepaal word.

Alle applikasies moet ingedien word op die voorgeskrewe vorm, wat van die magistrats van die distrikte waarin die plase geleë is, of van die Afdeling van Lande, Windhoek, verkrybaar is.

Die Landeafdeling het 'n staf van spesiaal applikasies en navrae betreffende grond behandel en aanstaande setlaars, wat met betrekking tot landnedersetting in Suidwes-Afrika informasie verlang, word aangeraai om die gewenste informasie van die Landeafdeling, Windhoek, te kry.
