1 Hektaar = ongeveer 1 1/2 morg.

1 Hectare = 1 1/2 morgen approximately.

Die Administrasie behou die reg om te eniger tyd enige hoewe wat in hierdie kennisgewing tot beskikking gestel word, terug te trek. Enige vorige kennisgewings waardeur hierdie hoewes geadverteer word, word hiermee teruggetrek.

Die groottes van die hoewes is naasteby aangetoon en gevolglik is dit moontlik dat die koopprys en huurgelde onderhewig kan wees aan veranderinge.

Die vergoeding wat sover moontlik in die kooppryse ingelyf is, sal deur die Administrasie betaal word, tensy die verbeterings deur die suksesvolle applikant aangebring is, wanneer die koopprys dan dienoreenkomstig verminder sal word.

Waar verbeterings aangebring is na die datum waarop die plase inspekteer is met die oog op advertensie, sal sodanige verbeterings deur die Landraad waardeur word en die waardasies by die koopprys gevoeg word.

Die kooppryse sluit ook sover moontlik die boorkoste in. Waar dit nie ingesluit is nie, word melding daarvan gemaak en sal dit metertyd by die koopprys gevoeg word.

Die afstande van die hoewes vanaf die naaste dorp of spoorwegstasie, soos aangetoon, is slegs volgens skatting.

Die besonderhede betreffende die hoewes, soos verbeterings, watervoorraad en die soort boerdery waarvoor die hoewes geskik is, is ontleen aan inspeksierapporte en applikante moet hulself oortuig van die juistheid van die besonderhede wat verstrekk word.

Inbesitneming.—Die huurkontrakte wat uitgereik sal word, sal bepalinge bevat dat die huurders die hoewes wat aan hulle toegeken word, persoonlik en op nuttige wyse moet bewoon binne ses weke na die datum van toekenning, en daarna vir minstens elf maande in elke kalender jaar.

The Administration reserves the right at any time to withdraw any holding offered for disposal by this notice. Any previous notices advertising these holdings are hereby withdrawn.

The extents of the holdings are indicated approximately and it is accordingly possible that the purchase prices and rentals can be subject to variations.

The compensation which has as far as possible, been included in the purchase prices, will be paid by the Administration, except in those cases where the successful applicant himself effected the improvements, when the purchase price will be reduced accordingly.

Where improvements have been effected after the farms were inspected for advertisement purposes, such improvements will be valued by the Land Board and the valuations added to the purchase prices.

The purchase prices also include, as far as possible, cost of boreholes. Where this has not been done mention of that fact has been made and the amount thereof will, in due course be added to the purchase price.

The distances of the holdings from the nearest town or railway station, as stated, are approximate only.

The particulars regarding the holdings, such as improvements, water supply and the type of farming for which the holdings are suitable, are based on inspection reports and applicants should satisfy themselves as to the correctness of the information furnished.

Occupation.—The leases to be issued will contain conditions to the effect that the lessees shall personally and beneficially occupy the holdings allotted within six weeks from the date of allotment and thereafter for at least eleven months in every calendar year.

Angesien daar 'n moontlikheid bestaan dat 'n groot aantal applikasies vir sommige van die hoewes in hierdie kennisgewing ontvang mag word, word applikante in hulle eie belang aangeraai om vir meer as een hoewe applikasie te maak. Die volgorde van voorkeur moet aangetoon word. Indien die hoewe van die eerste keuse dan nie toegeken word nie, sal die ander keuses in volgorde oorweging geniet.

Die eiendomsreg van grond in Suidwes-Afrika sluit nie die eiendomsreg van minerale en edelgesteentes op of onder sodanige grond in nie. Enige persoon, behoorlik daartoe genagtig kragtens die bepaling van Proklamasie No. 4 van 1940, soos gewysig, het die reg om op enige van bogenoemde hoewes te prospekteeer en dit af te pen. Prospekteeerlisensiehouers oor enige van bogenoemde hoewes het aanspraak op weiding en water vir hulle vee wat nodig is vir prospekteeerwerkzaamhede, asook op hout in sover dit beskikbaar is sonder om die boerderybedryf wesenlik daardeur te benadeel (sien artikel 33 van bogenoemde Proklamasie) en onderhewig aan die betaling van vergoeding soos bepaal word in die Mynwet.

ALGEMENE VOORWAARDES.

Omheining.

Die suksesvolle applikante moet, sodra toekennings aan hulle gemaak word, alle verantwoordelikheid aanvaar vir die betaling van alle bedrag wat betaalbaar mag wees vir omheining wat op die hoewes opgerig is. Suksesvolle applikante van enige van die hoewes waarop die grenslyn van gedeeltes daarvan opgerig is, sal verantwoordelikheid moet aanvaar onder enige Omheiningwet in Suidwes-Afrika vir enige bedrag wat deur aangrensende eiennars kragtens sodanige Wet ge-eis mag word.

Boorgate.

Die huurkontrakte wat dit voornemens is om uit te reik, ten aansien van die hoewes waarop boorgate voor of na toekening gesink word, sal 'n klousule bevat wat die Administrasie die reg gee om sodanige hoewes te betree en water van die boorgate te gebruik vir boerwerkzaamhede vir Administrasiedoelende om 'n tydperk van vyf jaar vanaf datum van die huurkontrakte.

Dit sal 'n voorwaarde van die huurkontrak wees dat die suksesvolle applikant van enige van bogenoemde hoewes waarop boorgate reeds bestaan, of nog gesink kan word alvorens die hoewes toegeken word, verantwoordelik gehou sal word, vanaf datum van toekening of voltooiing van die boerwerkzaamhede, vir die behoorlike sorg en onderhoud van die boorgate of boorgate op sy hoewe en aanspreeklik sal wees vir enige skade daaraan gerig. Hy moet derhalwe onder geen omstandighede gebruik maak van die water sonder om 'n behoorlike pompstelsel op die boorgate op te rig nie.

Voorskotte.

Die Administrasie onderneem nie om voorskotte aan suksesvolle applikante vir die aankoop van vee, ens., of die oprigting van permanente verbeterings, toe te staan nie.

Gesaaiendes.

Enige weidinglisensiehouer of tydelike huurder wat gesaaiendes in die grond het sal die reg hê om dit op te pas en af te oes.

In view of the large number of applications which may be received for some of the holdings in this notice, applicants are advised, in their own interests, to apply for more than one holding, stating their order of preference. Should their first choice not be allotted to them consideration will then be given to their other selections in order of preference.

The ownership of land in South West Africa does not include the ownership of minerals and precious stones in or under such land. All the above holdings are open to prospecting and pegging by any person duly authorised thereto in accordance with the provisions of Proclamation No. 4 of 1940, as amended. The holder of a prospecting licence over any of the abovenamed holdings is entitled to grazing and water for livestock required in connection with the prospecting operations, as well as wood in so far as it is available, without materially interfering with the working of the farm (vide section 33 of the Proclamation quoted above) and subject to payment of compensation as provided for in the Mining Law.

GENERAL CONDITIONS.

Fencing.

The successful applicants shall, on the allotments being made to them, assume full liability for the payment of all amounts which may be payable for fencing erected on the holdings. The successful applicants for any of the holdings on which the boundaries or part thereof are fenced, shall accept liability under any law relating to Fencing in South West Africa, for any amounts which may be claimed by adjoining owners in terms of the said Law.

Boreholes.

A clause will be inserted in the leases which it is proposed to issue in respect of holdings on which boreholes may be sunk before or after allotment thereof giving the Government access to and the right to take water from the boreholes for Administration drilling purposes for a period of five years from the date of the leases.

It will be a condition of lease that the successful applicant for any of the above holdings on which boreholes exist or may be sunk previous to allotment will be held responsible as from the date of allotment or from completion of the work for the proper care and maintenance of the borehole or boreholes on his holding and shall be liable for any damage caused thereto. He must, therefore, on no account use the water without a proper pumping plant.

Advances.

The Administration does not undertake to grant any advances to successful applicants for the purchase of stock, etc., or the erection of permanent improvements.

Crops.

Any grazing licence holder or temporary lessee who has any crops on the land shall be entitled to tend and reap them.

UITREIKING VAN GOEWERMENSGROND BRIEWE:

Goewermentsgrondbriewe van hoewes mag onder spesiale omstandighede, met toestemming van die Administrateur uitgereik word voordat die tydperk van tien (10) jaar vanaf datum van toekening verstrik is. As 'n huurder na afloop van 'n vyfjarige huurtermyn die Landraad gevrede kan stel dat die waarde van sy hoewe, met verbeterings van 'n duursame en aansienlike aard, sy totale skuld aan die Administrasie met een-vierde oortref (maar in elk geval nie minder as £400 nie), mag die Administrateur 'n Goewermentsgrondbrief uitreik en 'n Verband vir die totale bedrag wat nog skuldig is, aannem.

ISSUE OF GOVERNMENT GRANTS:

Government Grants of holdings may, in special circumstances, with the approval of the Administrator, be issued before the expiry of a period of ten (10) years from the date of allotment. When a lessee after five years tenancy can satisfy the Land Board that the value of his holding with permanent and substantial improvements exceeds by one-fourth (but not in any case by less than £400) the total indebtedness of the lessee to the Administration, the Administrator may issue a Government Grant and accept a Mortgage Bond for the total amount of the indebtedness still owing.

ALGEMENE OPMERKINGS:

Die huurkontrak wat uitgereik sal word, sal voorwaardes bevat wat betrekking het op bewoning, verbeterings, omheining, uitspannings, paic en sodanige andere voorwaardes as wat gewoonlik ingelyf word in Landboukontrakte toegestaan kragtens die Landnederstelling Gekonsoleerde en Wysigings Proklamasie 1927.

Die volgende spesiale klousules sal in die huurkontrakte ingelyf word wat dit van voornemens is om uit te reik, asook in die Goewerments Grondbriewe wat daarna uitgereik sal word:—

- (a) Die reg van die Administrasie om enige hoewe of 'n gedeelte daarvan terug te neem wat benodig word vir publieke of uitspanningsdoelendes teen betaling van vergoeding.
- (b) Dat bestaande paic en deurgange op die grond, of hulle op die kaart beskryf word of nie, vry en onbelemmerd gelaat sal word en dat die huurder van enige hoewe die aangrensende of aanliggende eienaar 'n reg van weg sal toelaat na en van die grond van sodanige aangrensende of aanliggende eienaar.

Die huurgeld wat gedurende die huurtermyn van vyf jaar betaal word, word nie van die koopprys afgetrek nie ingeval die opsig van aankoop uitgeoefen word.

Die Afdeling Lande het alle pogings aangewend om die inligting, in hierdie Kennisgewing vervat, so juis moontlik te verstrek, maar is nie aanspreeklik vir enige onjuistbede nie, ingeval hulle bestaan.

Applikante word in hulle eie belang aangeraai om die hoewes persoonlik te besigtig alvorens aansoek daarom te doen. Die Landraad is, by die oorweging van aansoeke om hoewes, in die reël nie geneig om aan te beveel dat toekenning gemaak word aan applikante wat versum het om die hoewes waarom hulle aansoek gedoen het, persoonlik te besigtig of deur iemand anders namens hulle te laat besigtig nie. Die Goewerment staan geen spoorweg- of vervoerkoncessies in verband met die besigtiging van hoewes toe nie.

Na die datum waarop hierdie kennisgewing verstryk, behoort enige moontlike applikante eers van die Afdeling Lande te verneem watter hoewes, indien enige, nog beskikbaar is voordat hulle enige daarvan inspekteer.

Alle applikasies moet ingedien word op die voorgeskrewe vorm wat verkrygbaar is by die Magistrate van die Distrikte waarin die hoewes geleë is of van die Hooftamptenaar, Afdeling Lande, Windhoek.

Applikasies wat by vorige geleenthede ingedien is, kan nie weer gebruik word vir hierdie lys van plase nie, en alle applikante moet dus nuwe applikasies indien.

GENERAL REMARKS:

The lease to be issued will contain conditions relating to residence, improvements, fencing, outspan, roads and such other conditions as are usually inserted in Agricultural leases granted under the Land Settlement Consolidation and Amendment Proclamation, 1927.

The following special clauses will be inserted in the leases which it is proposed to issue and in the Government Grants to be issued later:—

- (a) The right of the Administration to resume the whole or a portion of any holding required for public or outspan purposes on payment of compensation.
- (b) That existing roads and thoroughfares, whether they are described in the diagram or not, shall remain free and uninterrupted and that the lessee of any holding shall grant to any adjacent or neighbouring proprietor a way or road of necessity to and from the land of such adjacent or neighbouring proprietor.

The rent paid during the lease period of five years is not deducted from the purchase price in the event of the option to purchase being exercised.

The Lands Branch has made every effort to render as accurate as possible the information given in this notice but does not hold itself responsible for any inaccuracies should such exist.

Applicants are recommended, in their own interests, to inspect the holdings personally before applying therefor. In considering applications for holdings the Land Board is, as a rule, not inclined to recommend allotments to applicants who have failed to make a personal inspection of the holdings applied for or who have requested someone else to make the inspection on their behalf. No railway or transport concessions are given by the Government in connection with the inspection of holdings.

After the expiration of this notice intending applicants should first ascertain from the Lands Branch which holdings, if any, are still available before proceeding to inspect any of them.

All applications must be submitted on the prescribed form which can be obtained from the Magistrates of the Districts in which the farms are situate, or from the Senior Officer, Lands Branch, Windhoek.

Applications previously submitted cannot again be used for the list of farms and all applicants must submit new applications.
