(c) Indien die verbruiker binne 'n tydperk van 12 maande nadat hy ingevolge hierdie skaal aangeskakel is, vind dat die gekose vermoë onbevredigend is, kan hy die Elektrotegniese Stadsingenieur aansoek doen om 'n oombrekker met 'n ander sterkte. Sodanige ander oombrekker word dan kosteloos geïnstalleer. Indien verder verandering van stroombrekers gedurende dieselfde tydperk van twaalf maande verlang word, word sodanige verandering teen betaling van een rand vyftig sent (1.50) aangebring. Na afloop van die voormalde tydperk van twaalf maande word stroombrekers slegs op die gende voorwaardes vervang:

No. 144.]

[15 October 1970

The Administrator has been pleased under and by virtue of the powers in him vested by section 243 of the Municipal Ordinance, 1963 (Ordinance 13 of 1963) to approve the following amendments to the regulations promulgated by Government Notice 109 of 1957 as applied to the Municipality of Karasburg by Government Notice 9 of 1958.

MUNICIPALITY OF KARASBURG.

AMENDMENT OF ELECTRICITY SUPPLY REGULATIONS.

Insert the following appendix at the end of the regulations:

APPENDIX D.

TARIFFS AND CHARGES.

1. (a) All charges, fees and deposits provided for under these tariffs and charges shall be payable at the Municipal Offices, Karasburg.

(b) Where the classification of a consumer is doubtful, the Town Electrical Engineer shall decide on the tariff to be applied. Should the consumer not be satisfied with the decision of the Town Electrical Engineer he may apply in writing to the Council for review thereof and the Council's decision shall be final.

DEFINITION.

2. "Month" for the purpose of these tariffs, shall mean a period of approximately 30 days corresponding to the period between two consecutive meter readings.

CIRCUIT BREAKERS.

3. (a) Miniature circuit breakers shall be made available by the Council in a range of ampere ratings which shall normally be multiples of 5 with a minimum rating of 10 amperes per phase, up to a maximum of 60 amperes per phase, or higher if agreed to by the Town Electrical Engineer.

(b) A consumer requiring supply under this scale for the first time at a particular installation, may select the rating of the municipal circuit breaker through which his installation is to be supplied.

(c) If, during the course of a twelve month period after connection under this scale, the selected rating is found by the consumer to be unsuitable, application may be made to the Town Electrical Engineer for a circuit breaker of a different rating. Such circuit breaker shall be installed free of charge. If during the same twelve months period, further changes of circuit breakers are desired, such changes shall be carried out at a cost of R1.50 each. After the end of the twelve month period referred to above, circuit breakers will only be replaced on the following conditions:

- a written application accompanied by a payment of R2.00 shall be submitted to the Town Treasurer.
- Such application shall only be acceded to after the lapse of a period of six months from the date of application, except in special cases, where it can be shown, to the satisfaction of the Town Electrical Engineer, that a change in the connected load of the installation justifies a proportional change in rating of the circuit breaker.

(d) By die toepassing van stroombrekertariewe het die Raad die reg om van die verbruikers te verlang om te vermeld welke sterkte stroombrekers verlang word. Indien 'n verbruiker versuim om die verlangde sterkte te vermeld, kan die Raad die installasie deur een of meer stroombrekers met 'n vermoë van 15 amperes in die geval van Tarief 1 en 10 amperes in die geval van Tarief 2, laat aansluit en gelde dienooreenkomsdig hef.

(e) In enige geval waar 'n verbruiker se installasie aan- of afgesluit word op 'n dag wat tussen twee agtereenvolgende lesings van die meter val, is die vaste heffing vir die gedeelte van die maand tot by die lesing van die meter 'n breuk van die vaste maandelikse heffing welke breuk vasgestel word deur die aantal dae van die maand waartydens die installasie aangesluit is, met 30 te deel.

If the circuit breaker is found to be operating correctly, the deposit shall be forfeited; if the circuit breaker is found to be operating incorrectly, allowing less current than the nominal rating, the deposit shall be refunded and a correctly rated circuit breaker installed without charge. A circuit breaker shall be deemed to be correctly rated if it carries full rated current indefinitely. (For test purposes, this requirement shall be deemed to be met if the circuit breaker carried full rated current for a period of one hour without tripping).
