SCHEDULE

TARIFF OF FEES FOR DENTAL SERVICES

This Schedule includes procedures performed by general dental practitioners, maxillo-facial and oral surgeons, orthodontists, periodontists, prosthodontists and oral pathologists

The dental procedure codes for general dental practitioners are divided into twelve (12) categories of services. The procedures have been grouped under the category with which the procedures are most frequently identified. The categories are solely for convenience in using the Schedule and should not be interpreted as excluding certain types of Oral Care Providers from performing or reporting such

procedures. General practitioners are advised to become familiar with the details of these categories since it is similar to the Current Dental Terminology, Second Edition (CDT-2), which was adopted in principle by NAMAF and SADA.

This includes the issuing of a prescription where only medication is prescribed. Item 8104 refers to a consultation for a specific problem and not to a full mouth examination, charting and treatment planning. This includes the issuing of a prescription where only medication is prescribed
- D002** Except in those cases where the fee is determined “by arrangement”, the fee for the rendering of a service which is not listed in this schedule shall be based on the fee in respect of a comparable service that is listed therein and Rule D002 must be indicated together with the tariff item
- D003** In the case of a prolonged or costly dental service or procedure, the dental practitioner or specialist shall ascertain beforehand from the Commission whether it will accept financial responsibility in respect of such treatment.
- D004** In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a dental practitioner or a specialist, such higher fee as may be agreed upon between the dental practitioner or specialist and the Commission, may be charged and Rule D004 must be indicated together with the tariff code.
Conversely, if the fee is disproportionately high in relation to the actual services rendered, a lower fee than that in the Tariff of Fees should be charged.

IV TRAVELLING EXPENSES**GENERAL INFORMATION****a) Notes in respect of the Employees' Compensation Act, 1941 (Act No. 30 of 1941)****(i) The Employee and the Medical Practitioner**

The injured employee is permitted to choose freely his or her own doctor, and no interference with this privilege is permitted as long as it is exercised reasonably and

without prejudice to the employee himself/herself or the Compensation Fund. The only exceptions to this rule are those cases where employers, with the Commission's approval, provide their own medical aid facilities in toto, i.e. including hospital, nursing and other services in terms of section 81 of the Act.

In terms of section 60 either the Commission or an employer may send the injured employee to another doctor chosen by him/her (Commission or employer) for a special examination and report. Special fees are payable for this service.

In the event of a change of medical practitioners attending a case, the first practitioner in attendance will, except where the case is handed over to a specialist, be regarded as the principal, and payment will normally be made to him/her. To avoid disputes, medical practitioners should refrain from treating a case already under treatment without first discussing it with the first practitioner. As a general rule, changes of medical practitioners are not favoured.

If an injured employee is in need of emergency treatment, the medical practitioner should act in the same manner as he/she would to any patient who needs his or her urgent help. He/she should not, however, ask the Commission to authorize payment for such treatment before the claim has been admitted as falling within the scope of the Act. It should be remembered that an injured employee seeks medical advice at his or her own risk. If, therefore, an injured employee represents to his or her doctor that he/she is an Employees' Compensation Act case and yet fails to claim the benefits of the Act, leaving the Commission or his or her employer, in ignorance of any possible grounds for a claim, the Commission cannot accept any responsibility for any medical expenses incurred. In such circumstances the injured employee would be in the same position as any other member of the public as regards payment of his or her medical expenses.

- (ii) Except where otherwise stated the fees charged for services of a general practitioner shall be two-thirds of the fees of a specialist for the same service

b) Explanation and General Comments

- (i) In compiling this tariff the Commission has used the anatomical system established by the S.A. Medical Association, in which units have been allocated to each procedure, operation, consultation, etc. In order to calculate the fee for each service the number of units attached to the particular item is multiplied by the respective monetary value of the unit.

- (ii) The monetary value of units for the various groups and sections is as follows:

1)	Anaesthesiology	N\$ 56.92
2)	Anatomical Pathology, Cytology, N\$ 13.98 Histology N\$ 13.23	
3)	Clinical Pathology	N\$ 11.80
4)	Clinical Procedures	N\$ 10.73
5)	Computed Tomography	N\$ 11.55
6)	Consultative Services	N\$ 14.33
	General Practitioner (0101)	N\$ 16.81
	General Practitioner (0108)	N\$ 16.93
7)	Magnetic Resonance Imaging	N\$ 11.00
8)	Radiation Oncology	N\$ 12.52
9)	Radiology	N\$ 14.44
10)	Ultrasound	N\$ 9.87

- (iii) Every medical practitioner must acquaint him/herself with the provisions of the Employees' Compensation Act, 1941 (Act No. 30 of 1941) and the regulations promulgated under the Act in connection with the rendering of accounts.

Every account shall be signed by the service provider and shall contain the following particulars:

1. The name, address and practice code number of the medical practitioner;
2. The surname, first name, date of birth, Social Security number of the injured employee and the date of accident;
3. The name, address and contact telephone number of the employer;
4. The nature of the treatment;
5. The date on which the service was rendered;
6. The tariff code number and fee for the procedure used in this schedule

and shall be accompanied by

7. A copy of the completed "Employer's Report of Accident" (Form E.Cl. 2), page 1,

and where applicable shall be accompanied by

8. A copy of the referral letter of the medical or dental practitioner concerned;
9. The First Medical Report and Account (Form E.Cl. 4);
10. The Final/Progress Medical Report (Form E.Cl. 5);

(See Annexure A for listing of Forms)

GENERAL RULES GOVERNING THE TARIFF

A. Consultations:

- (i) First consultation: Refers to a situation where a medical practitioner personally takes down a patient's medical history, performs an appropriate clinical examination and, if indicated, prescribes or administers treatment.
- (ii) Subsequent visits: Refers to a voluntarily scheduled consultation performed for the same condition within four (4) months after the first consultation (although the symptoms or complaints may differ from those presented during the first consultation). It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.
- (iii) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be levied unless otherwise agreed upon with the Commission. Where no procedure or operation was carried out fees may be charged for hospital visits according to item 0109. Dates of hospital visits must be specified.

- B.** Normal hours and after hours: Normal working hours refer to the periods 08:00 to 17:00 on Mondays to Fridays and 08:00 to 13:00 on Saturdays as well as all other periods voluntarily scheduled by a medical practitioner (even when for the convenience of the patient) by a medical practitioner for the rendering of services. All other periods are regarded as after-hours. Public holidays are not regarded as normal working days and work performed on these days is regarded as after-hours work.

- C.** The fee that may be charged in respect of the rendering of a service not listed in this tariff of fees shall be based on the fee in respect of a comparable service.
- D.** Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation the relevant consultation fee shall be payable by the injured employee. In the case of a general practitioner “timely” shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall however; be considered on merit and, if circumstances warrant, no fee shall be charged.
- E.** Pre-operative care: The appropriate fee may be charged for all pre-operative consultations with the exception of a routine pre-operative visit at the hospital.
- F.** Where applicable fees for administering injections and/or infusions may only be charged when done by the practitioner him-/herself.
- G.** Post-operative care: Unless otherwise stated, the fee in respect of an operation or procedure shall include normal after-care for a period not exceeding four months. Where the surgeon does not him-/herself complete the after-care, it shall be his or her responsibility to arrange for this to be done without extra charge: Provided that in the case of post-operative treatment of a prolonged or specialized nature, such fee as may be agreed upon between the surgeon and the Commission, may be charged. Where an employee met with an accident and received medical treatment away from home and afterwards has to be transferred to his hometown, treatment may be taken over by another doctor who will be entitled to further payment.
- H.** Removal of lesions: Items involving removal of lesions include follow-up treatment for four months.
- I.** Fees for all pathology investigations performed by members of other disciplines (where permissible): See section for Pathology. (Refer to modifier 0097).
- J.** In exceptional cases where the tariff fee is disproportionately low in relation to the actual services rendered by a medical practitioner a higher fee may be negotiated with the Commission. Conversely, if the fee is disproportionately high in relation to the actual services rendered a lower fee than that in the tariff should be charged.
- K.** Save in exceptional cases the services of a specialist shall be available on the recommendation of the attending general practitioner. Medical practitioners referring cases to other medical practitioners shall, if known to them, indicate in the reference that the patient was injured in an “accident” and this shall also apply in respect of specimens sent to pathologists.
- L.** Procedures performed at time of visits: If a procedure is performed at the time of an initial or subsequent consultation, the fee for the consultation plus the fee for the procedure may be charged.
- M.** If such a procedure, planned at an initial or subsequent consultation, is performed at another time, the fee for the procedure only may be charged.
- N.** “Per consultation”:
- (a) No additional fee may be charged for services for which the fee is indicated as “per consultation”. Such services are regarded as part of the consultation performed at the time the condition is brought to the medical practitioner’s attention.
 - (b) Where a fee for any service is prescribed herein, the medical practitioner shall not be entitled to payment calculated on a basis of visits or examinations made where such calculation would result in the prescribed fee being exceeded.

- (c) The number of consultations must be in direct relation to the seriousness of the injury and should more than 20 consultations be necessary, the Commission must be furnished with a detailed motivation.
 - (d) A single fee for a consultation/visit shall be paid to a medical practitioner who gives a single treatment to an injured employee who thereafter passes to the permanent care of another medical practitioner, not being a partner or assistant of the first. The responsibility for furnishing the first medical report in such a case ordinarily rests with the second practitioner.
- O.**
- (a) An employee should be hospitalized only if and for such a period his or her condition justifies full-time "medical aid".
 - (b) Occupational Therapy/Physiotherapy: The same principles set out in modifier 0077 will apply when an employee is referred to a therapist.
 - (c) In the case of costly or prolonged medical services or procedures the medical practitioner shall first ascertain in writing from the Commission for what amount the Commission will accept responsibility in respect of such treatment.
- P.** Travelling fees
- (a) Where, in case of emergency, a practitioner was called out from his residence or rooms to an employee's home or the hospital, travelling fees can be charged according to section IV if he/she had to travel more than 16 kilometres in total.
 - (b) If more than one injured employee would be attended to during the course of a trip, the full travelling expenses must be divided pro rata between the relevant employees.
 - (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his or her rooms.
 - (a) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled).
 - (b) Where a practitioner conducts an itinerant practice, he/she is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled).

A report of the examination, including the findings and diagnostic comment, must be written and stored for five years.

GENERAL MODIFIERS GOVERNING THE TARIFF

- 0001** For involuntarily scheduled after-hours emergency radiological services, the additional premium shall be 50% of the fee for the particular services (section 19.12 excluded). See General Rule B. For after-hours MR scans, a maximum levy of 100 radiological units (N\$ 1444.00) is applicable.
- 0002** Item 38/0101 is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him.
- 0005** Multiple procedures/operations under the same anaesthetic. Unless otherwise identified in the tariff, when multiple procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, plus 50% (half of) the tariff fee in respect of each additional operation or procedure with a maximum of four additional operations or procedures. In the case of multiple fractures and/or dislocations the same values shall prevail.
- Note:
- a) When more than one small procedure is performed and the tariff makes provision for items for “subsequent” or “maximum for multiple additional procedures” (see section 2: Integumentary System) modifier 0005 is not applicable as the fee is already a reduced fee.
- b) In the case of multiple fractures and/or dislocations the same values shall prevail.
- 0006** A 25% reduction in the fee for a subsequent operation for the same condition within one month shall be applicable if the operations are performed by the same surgeon (an operation subsequent to a diagnostic procedure is excluded). After a period of one month the full fee is applicable.
- 0007** Remuneration for the use of any type of own equipment in the rooms for procedures performed under intravenous sedation or for procedures performed in a hospital or day-clinic theatre when appropriate equipment is not provided by the hospital: 15.00 clinical procedure units (N\$ 161.00) irrespective of the number of items of equipment provided.
- 0008** Where a procedure requires a registered specialist surgeon assistant, the fee is 33,33% (1/3) of the fee for the specialist surgeon

- 0009** The fee for an assistant is 20% of the fee for the specialist surgeon, with a minimum of 36.00 clinical procedure units (N\$386.30).
- 0010** A fee for a local anaesthetic administered by the operator may only be charged for an operation or a procedure having a value greater than 30.00 clinical procedure units (N\$ 300.30) i.e. 31.00 or more clinical procedure units (N\$ 321.90) allocated to a single item.
- The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per modifier 0036 shall be applicable in such a case. Not applicable to radiological procedures such as angiography and myelography.
- No fee may be levied for topical application of local anaesthetic.
- 0011** The additional fee to all members of the surgical team for after-hours emergency surgery for theatre procedures shall be 12.00 clinical procedure units (N\$ 128.80) for each half-hour or part thereof of the operation time. Normal hour fees to be charged in respect of injured employees on scheduled lists.
- 0013** Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged.
- 0014** Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under General Rule J, except where already specified in the tariff.

MODIFIERS GOVERNING SPECIFIC SECTIONS OF THE TARIFF

INJECTIONS, INFUSIONS AND INHALATION SEDATION

- 0015** Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after operation, no extra fees will be charged, as this is included in the global operative fees. Should the practitioner doing the operation prefer to ask another practitioner to perform postoperative intravenous infusions, then the practitioner him/herself (and not the Commission) shall be responsible for remunerating such practitioner for the infusion.
- 0017** Where desensitisation, intravenous, intra-muscular or subcutaneous injections are administered by the medical practitioner him/herself in respect of injured employees who attend the consulting rooms, a first injection forms part of the consultation and all subsequent injections for the same condition should be charged at 50% of the appropriate consultation fee for a general practitioner.

ADMINISTRATION OF ANAESTHETIC FOR ALL PROCEDURES AND OPERATIONS INCLUDED IN THIS TARIFF

- 0021** Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units plus the time units and the appropriate modifiers (see modifiers 0037 to 0039, 0041 and 0042). In cases of operative procedures on the musculo-skeletal system, open fractures and open reduction of fractures or dislocations add fees as laid down by modifiers 5441 to 5448.
- 0023** The basic anaesthetic units are laid down in the tariff. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist and the

scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis:

Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic i.e. 2.00 anaesthetic units (N\$ 113.80) per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one hour the number of units shall, after one hour, be 3 anaesthetic units (N\$ 170.80) per 15 minute period or part thereof.

0024 If a pre-operative assessment of a patient by the anaesthesiologist is not followed by an operation it will be regarded as consultation at the hospital or nursing home.

0025 Anaesthetic time is calculated from the time the anaesthesiologist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist is no longer required to give his personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time.

The anaesthesiologist must show in his or her account the exact anaesthetic time and the supervision time spent with the patient.

0027 Where more than one operation is performed under the same anaesthetic, the basic value will be that of the major operation with the highest unit value.

0029 When rendered necessary by the scope of the anaesthetic an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic.

0031 Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time.

0032 Anaesthesia administered to patients in the prone position shall have a minimum of 4.00 basic anaesthetic units (N\$ 227.70). When the basic anaesthetic units for the procedure are 3.00 (N\$ 170.80), one extra anaesthetic unit may be added. If the basic anaesthetic units for the procedure are 4.00 (N\$ 227.70) or more, no extra unit should be added.

0033 When an anaesthesiologist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic such services may be remunerated at full anaesthetic rate, subject to the provisions of modifier 0035.

0034 All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4.00 basic anaesthetic units (N\$ 227.70). When the basic anaesthetic units for the procedure are 3.00 (N\$ 170.80), one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure are 4.00 (N\$ 227.70) or more no extra units should be added.

0035 No anaesthetic administered by a specialist anaesthesiologist shall have a total value of less than 7.00 anaesthetic units (basic units plus time units) (N\$ 398.40).

0036 Fees for an anaesthetic administered by a general practitioner shall be two-thirds (2/3) of the total number of units applicable to the specialist anaesthesiologist provided that no

anaesthetic shall have a total value of less than 5 anaesthetic units (N\$ 284.60). The monetary value of the unit is the same for both a specialist anaesthesiologist and a general practitioner anaesthetist.

Note: Modifying units may be added to the basic anaesthetic unit value according to the following modifiers: (0037-0042, 5441-5448)

- 0037** Utilization of total body hypothermia: Add 3 anaesthetic units (N\$ 170.80).
- 0038** Peri-operative blood salvage: Add 4.00 anaesthetic units (N\$ 227.70) for intra-operative blood salvage and 4.00 anaesthetic units (N\$ 227.70) for post-operative blood salvage.

19. RADIOLOGY

DIAGNOSTIC PROCEDURES

Note: The calculated amounts in this section (except for sections 19.9 and 19.11) are calculated according to the radiology monetary unit values

RULES GOVERNING THIS SECTION OF THE TARIFF

Y Except where otherwise indicated, radiologists are entitled to charge for contrast material used.

Z No fee is subject to more than one reduction

GG Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years.

Rules governing the section DIAGNOSTIC PROCEDURES REQUIRING THE USE OF RADIO-ISOTOPES

AA Procedures to exclude cost of isotope

Rules governing the section RADIATION ONCOLOGY

BB The fees in this section do not include the cost of radium or isotopes

Rules governing the section ULTRASONIC EXAMINATIONS

EE (a) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account submitted to the Commission (by the radiologist or the other practitioner doing the scan) as the case may be.

- (b) In case of a referral to a radiologist, no motivation should be required from the radiologist

MODIFIERS GOVERNING SPECIFIC SECTIONS OF THE TARIFF

DIAGNOSTIC RADIOLOGY

- 0001** For involuntarily scheduled after-hours emergency radiological services, the additional premium shall be 50% of the fee for the particular services (section 19.12 excluded). See General Rule B.

For after-hours MR scans (items 6200 to 6255), a maximum levy of 100.00 radiological units (N\$1444.00) is applicable.

- 0002** Item 38/0101 is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him/her.
- 0080** Multiple examinations: Full fee
- 0081** Repeat examinations: No reduction
- 0082** “+” means that this item is complementary to a preceding item and is therefore not subject to reduction.
- 0083** Where a radiologist makes use of hospital equipment only 66.67% of the fee for the examination is chargeable.

Note in respect of fees payable when general practitioners take X-rays.

If the services of a radiologist are normally available, it is expected that these services should be utilised. Should circumstances be unfavourable for obtaining such services at the time of the first consultation, the general practitioner may take the initial X-ray him/herself provided he/she submits a certificate to the effect that it was in the best interest of the employee injured on duty for him/her to have taken the plates. A radiologist who has to submit the relevant reports in the normal manner, however, must take subsequent X-rays of the same injury.)

1. When a general practitioner takes X-rays with his or her own equipment, if the services of a specialist radiologist are not available, he/she may claim at the prescribed fee for general practitioners.
2. (i) If a general practitioner orders an X-ray examination at a health facility where

The services of a specialist radiologist are available, it is expected that the radiologist shall read the photos for which he may claim at one third of the prescribed fee.

- (ii) If the radiographer of the hospital is not available and the general practitioner has to take the X-ray plate's him/herself, he/she may claim at 50% of the prescribed fee for that service. In that case, however, he/she should get confirmation of his or her X-ray findings in a report from the radiologist as soon as possible. The radiologist may then claim at one third of the prescribed fee for service.

3. If a general practitioner orders an X-ray examination at a health facility where there are no specialist radiological services available, he/she will not be paid for reading the plates as such a service is considered as an integral part of routine diagnosis, but if he/she is requested by the Commission to submit a written report on the case, he/she may claim at two thirds of the prescribed fee for such service.
4. If a general practitioner has to take and read X-ray plates at a health facility where the services of a radiographer and a specialist radiologist are not available he/she may claim 50% of the prescribed fee for such service.

Note: Modifier 0083 is not applicable to section 19.8 (Vascular Studies) and section 19.14 (Interventional Radiological Procedures)

- 0084** In the case of radiological items where films are used practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit.

VASCULAR STUDIES

- 0086** Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier M0080.

VASCULAR STUDIES and INTERVENTIONAL RADIOLOGY PROCEDURES

- 6300** If a procedure lasts less than 30 minutes only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account).
- 6301** If a procedure is performed by a radiologist in a facility not owned by him/herself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)
- 6302** When the procedure is performed by non-radiologists, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)
- 6303** When a procedure is performed entirely by a non-radiologist in a facility owned by a radiologist, the radiologist owning the facility may charge 55% of the procedure units used. Modifier 6302 applies to the non-radiologist performing the procedure
- 6305** When multiple catheterization procedures are used (items 3557, 3559, 3560, 3562) and an angiogram investigation is performed at each level, the unit value of each such multiple procedure will be reduced by 20.00 radiological units (N\$ 288.80) for each procedure after the initial catheterization. The first catheterization is charged at 100% of the unit value

COMPUTED TOMOGRAPHY

- 0088** Multiple selective catheterisations: For each additional selective catheterisation after the first selective catheterisation, reduce the fee by 25%.

ULTRASONIC INVESTIGATIONS

- 0160** Aspiration of biopsy procedure performed under direct ultrasonic control by an ultrasonic aspiration biopsy transducer (Static Realtime): Fee for part examined plus 30% of the units.

- 0165** Use of contrast during ultrasound study: Add 6.00 ultrasound units (N\$ 59.20)

MAGNETIC RESONANCE IMAGING

- 0090** Radiologist's fee for participation in a team: 30.00 radiology units (N\$ 433.20) per 1/2 hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterization, CT-scanning, ultrasound scanning or X-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only).
- 6100** In order to charge the full fee of 600.00 magnetic resonance units (N\$ 6600.00) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes.
- 6101** Where a limited series of a specific anatomical region is performed (except bone tumor), e.g. a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region.
- 6102** All post-contrast studies (except bone tumor) including perfusion studies, to be charged at 50% of the fee.
- 6103** Post-contrast study: Bone tumor: 100% of the fee.
- 6106** Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognized angiographic software package with reconstruction capability.
- 6107** Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognized angiographic software package with reconstruction capability.
- 6108** Where only a gradient echo series is performed with a machine without a recognized angiographic software package with reconstruction capability, 20% of the full fee is applicable specifying that it is a "flow sensitive series".
- 6109** Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain.
- 6110** MRI spectroscopy: 50% of fee

RADIATION ONCOLOGY

- 0093** The fees for radiation oncology shall apply only where a specialist in radiation oncology uses his or her own apparatus.
- 0170** Multiple areas to a maximum of 3 areas treated in the same treatment session: Unless otherwise identified in the Tariff, where treating multiple treatment volumes/areas which add significant time and/or complexity, and when each treatment volume/area is clearly identified and defined, the following values shall prevail: 100% (full value) for the first volume/area, two-thirds for the second volume/area and one-third for the third volume/area.

IV. TRAVELLING EXPENSES

RULES GOVERNING THIS SECTION OF THE TARIFF:

- P.** (a) Where, in case of emergency, a practitioner was called out from his residence or rooms to an employee's home or the hospital, travelling fees

can be charged according to section IV if he/she had to travel more than 16 kilometres in total.

- (b) If more than one injured employee would be attended to during the course of a trip, the full travelling expenses must be divided pro rata between the relevant employees.
- (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his or her rooms.
- (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled).
- (e) Where a practitioner conducts an itinerant practice, he/she is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled).

TRAVELLING COSTS AND/OR TRAVELLING TIME

When in cases of emergency (refer to general rule P), a medical or dental practitioner has to travel more than 16 kilometers in total to visit an employee injured on duty, travelling costs and/or travelling time can be charged and shall be calculated as follows:

Consultation, visit or surgical fee plus

5001 Cost of public transport and travelling time or item 5003.

5003 N\$ 2.50 for each kilometre in excess of 16 kilometres total travelled in own car. The fees shall be calculated as follows, where a practitioner has to travel 19 kilometres in total: $19 - 16 = 3 \times 2.50 = \text{N\$ } 7.50$.

Note: Travelling time is only applicable when public transport is used.

5005 Specialist: 18 clinical procedure units (N\$193.10) per hour or part thereof.

5007 General practitioner: 12 clinical procedure units (N\$128.80) per hour or part thereof.

5009 After hours: Specialist: 27 clinical procedure units (N\$289.70) per hour or part thereof.

5010 After hours: General Practitioner: 18 clinical procedure units (N\$193.10) per hour or part thereof.

5013 Travelling fees are not payable to medical practitioners when they travel from a distance to assist at an operation on cases referred to surgeons by them.
