REGISTRATION OF CERTAIN MEDICINES: MEDICINES AND RELATED SUBSTANCES CONTROL ACT, 2003

In terms of section 23 of the Medicines and Related Substances Control Act, 2003 (Act No. 13 of 2003), I give notice that the medicines set out in the Schedule have been registered in terms of that Act, subject to the following conditions:

- (a) the manufacture and control of medicines must be in accordance with the existing current Good Manufacturing Practices as required by the World Health Organisation;
- (b) in order to assess compliance with paragraph (a), inspections and investigations may be carried out regularly by inspectors authorised in terms of section 35 of the Act;
- (c) the information in the package insert must, on a regular basis, be updated to conform with the package insert approved by the Council;
- (d) the holder of a certificate of registration, referred to in section 19(7) of the Act, must comply with the Act;

- (e) the registration of a medicine is subject to regular review regarding its quality, safety and efficacy and the Council may, as it considers necessary, vary the registration of such medicine;
- (f) the first two production batches must be validated in accordance with the detailed process validation protocol, which was submitted at the time of the application for registration;
- (g) a validation report must be submitted to the Council within one month from the date of completion of the validation referred to in paragraph (f); and
- (h) the Council may review the registration dossier at such intervals as the Council may determine.
