*The following additional approval or amendment to the tariff determination policy was granted by Cabinet:*

*That the process of determining tariffs for mines continues to be the same as approved. However, the requirement for mines to verify actual expenditure incurred by the mines is amended, and the costs verification process be conducted jointly by the Ministries of Mines and Energy and Agriculture, Water and Forestry, in order to remove the necessity for the mines to inspect the books of NamWater as is the current practice. This will stand until the process of establishing an independent regulator is being finalised.*
