- **Rezoning of Erf 376, Elisenheim from ‘business’ with a bulk of 1.0 to ‘general residential’ with a density of 1 dwelling per 50m²**

Erf 376 is located in Elisenheim Proper, close to the entrance of Elisenheim. The erf is 642m² in extent and zoned ‘business’ with a bulk of 1.0. It is located just north of the Elisenheim business and is surrounded by other General Residential erven as well as vacant business erven. A sectional title complex comprising of 9 units.

The Body Corporate wish to rezone the erf in order to align the zoning of the erf with the actual land use. Based on the new approved density category of 1 dwelling per 50m², the number of units are in line with the density applied for. Additionally, the rezoning will allow for lowered rates and taxes levied on services as per current ‘business’ zoning. The site provides sufficient parking as per the City of Windhoek requirements. Within the applied density category, no additional units can be constructed. The rezoning will thus not result in any changes to the current buildings/use.

The locality plan of the erf lies for inspection on the Town Planning Notice Board in the Customer Care Centre, Municipal Offices, Rev. Michael Scott Street, Windhoek and at the offices of Du Toit Town Planning, 4 Dr. Kwame Nkrumah Avenue, Klein Windhoek.

Any person objecting to the proposed use of land as set out above may lodge such objection together with the grounds thereof with the City Council and the applicant within 14 days of the last publication of this notice (**final date for objections is 29 March 2023**).
