the Harbours of the Republic of South Africa and of South-West Africa published under Government Notice R. 290 of 2 March 1962, of the following regulation:

GANGWAYS

48. (a) The master of every ship whether alongside a wharf, quay or jetty, or outside another ship, or lying at buoys, or at anchor, must provide a safe and proper gangway so arranged as to admit of free and safe passage to or from the deck of the ship, and such gangway must be sufficiently lighted and be placed under control of a competent person who shall be in attendance at all times. A proper safety net must be rigged and secured below a gangway as soon as the gangway is in position to safeguard persons using the gangway from falling into the water or onto the wharf. The said person must also regulate the number of persons allowed on the gangway at any one time when boarding or leaving the ship. A notice indicating the maximum number of persons to be allowed on the gangway at any one time must be clearly displayed on each end of the gangway. A lifebuoy with a line attached thereto must be placed near each gangway and kept ready for immediate use. When lighters are being worked alongside a ship at an outer anchorage the ship's side shall be kept clear of all obstructions, the gangway ladder being lowered only as and when required. In addition to complying with the requirements of this regulation the master of every ship whilst within a harbour under the Administration's jurisdiction shall comply with any applicable regulation made under the provisions of the Merchant Shipping Act, 1951.

(b) The master shall ensure that a gangway is at all times so positioned that it does not obstruct or foul rail or crane tracks or constitute a hazard to the safe movement of trucks and cranes.

(c) In relation to any place where the Administration itself provides and operates a telescopic gangway between ship and shore, the Administration may in writing exempt the master of any ship from the obligation to comply with the requirements of this regulation regarding the provision of a gangway, and when any such exemption has been granted no liability shall attach to the master or the owners of such ship on account of the death of or injury to any person using such telescopic gangway, and/or loss of or damage to property, except where such death, injury, loss or damage is due to over-extension of or other unsafe condition in such gangway attributable directly to a negligent act or omission on the part of a member of the crew of such ship or of any other person for whom the said owners are responsible.

(d) The master shall take such precautions as are necessary to prevent damage to quay surfaces by ship's gangways.

(e) For the purpose of this regulation—

“gangway” shall be any means of access between ship and shore and vice versa.

[Amendment 38]

van die Regulasies vir die Hawens van die Republiek van Suid-Afrika en van Suidwes-Afrika, afgekondig by Goewermentskennisgewing R. 290 van 2 Maart 1962, deur die volgende regulasie:

LOOPPLANKE

48. (a) Afgesien daarvan of 'n skip langs 'n kaai, hawehoof, anderkant 'n ander skip, aan boeie of voor anker lê, moet die kaptein van die skip 'n veilige en behoorlike loopplank op sodanige wyse verskaf dat dit vrye en veilige toegang tot die dek van die skip, of omgekeerd, verleen. Sodanige loopplank moet voldoende verlig wees en onder die toesig van 'n bevoegde oppasser wat te alle tye daar op diens moet wees. Sodra die loopplank in posisie geplaas is moet 'n behoorlike veiligheidsnet op so 'n wyse onder die loopplank aangebring word dat dit sal verhoed dat persone wat die loopplank gebruik in die water of op die kaai val. Die genoemde persoon moet ook die aantal persone wat gelyktydig op die loopplank toegelaat kan word, terwyl hulle aan boord gaan of land, beheer. 'n Kennisgewing wat die maksimum getal persone aandui wat die loopplank gelyktydig mag gebruik moet aan beide ente van die loopplank aangebring word. 'n Reddingsboei met 'n tou daaraan moet naby elke loopplank gereed gehou word vir onmiddellike gebruik. Wanneer ligters langs 'n skip by 'n buiteankerplek bedien word, moet die kant van die skip vry van alle versperrings gehou word, en die lere moet neergelaat word net wanneer dit nodig is. Onderwyl 'n skip in 'n hawe onder die jurisdiksie van die Administrasie is, moet die kaptein nie alleen die vereistes van hierdie regulasie nakom nie maar ook enige toepaslike regulasie wat opgestel is kragtens die bepalinge van die Handelskeepvaartwet, 1951.

(b) Die kaptein van die skip moet verseker dat 'n loopplank te alle tye so geplaas is dat dit nie 'n trein- of kraanspoor versper nie of dat dit 'n gevaar vir die veilige beweging van trokke en krane inhou nie.

(c) In verhouding tot 'n plek waar die Administrasie self 'n teleskopiese loopplank tussen skip en land verskaf en bedien, kan die Administrasie die kaptein van 'n skip skriftelik vrystel van die verpligting om aan die bepalinge van hierdie regulasie te voldoen vir sover dit die verskaffing van 'n loopplank betref, en wanner sodanige vrystelling verleen is, sal geen aanspreeklikheid op die kaptein of die eienaars van sodanige skip rus van weë die dood van of besering aan 'n persoon wat van sodanige teleskopiese loopplank gebruik maak en/of vanweë verlies of skade aan eiendom nie, behalwe waar sodanige dood, besering, verlies of skade te wyte is aan die ooruitrekking van of ander onveilige toestand in sodanige loopplank, wat regstreeks toegeskryf kan word aan 'n nalatige handeling of versuim van die kant van 'n lid van die bemanning van die skip of van enige ander persoon waarvoor die genoemde eienaars aanspreeklik is.

(d) Die kaptein moet sodanige voorsorgmaatreëls neem as wat nodig is om te verhoed dat skeepsloopplanke die kaaioppervlakte beskadig.

(e) Vir die doel van hierdie regulasie beteken—

“loopplank” enige manier van toegang tussen skip en land en omgekeerd.
