REGULATIONS

REGULATIONS SURVIVING IN TERMS OF

Health Professions Act 16 of 2024
section 95(10)

**Regulations relating to Registration of Medical Practitioners,
Qualifications that may be Registered as Specialities and
Maintaining of Registers of Medical Practitioners**

Government Notice 88 of 2022

(GG 7769)

came into force on date of publication: 18 March 2022

These regulations were made in terms of section 59 read with section 18 of the Medical and Dental Act 10 of 2004, which was repealed by the Health Professions Act 16 of 2024.

Pursuant to section 95(10) of the Health Professions Act 16 of 2024,
they are deemed to have been made under that Act.

The Government Notice which publishes these regulations states that they were made on the recommendation of the Medical and Dental Council of Namibia. It also repeals the regulations contained in GN 278/2017 (GG 6442).

ARRANGEMENT OF REGULATIONS

1. Definitions
2. Application for registration as medical practitioner
3. Registrable specialities
4. Application for registration of speciality
5. Limitation on practising of speciality
6. Commencement of speciality practice
7. Change of name or cessation of speciality practice
8. Conditions applicable to practising of speciality
9. Registrable sub-specialities
10. Application for registration of sub-speciality
11. Register of medical practitioners
12. Restoration of names to register
13. Application for registration of additional qualifications

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

14. Registrable additional qualifications
15. Language of forms and documents

Annexure A:	Registrable specialities
Annexure B:	Registrable specialities: educational institutions
Annexure C:	Registrable sub-specialities
Annexure D:	Registrable additional qualifications

Definitions

1. In these regulations a word or an expression to which a meaning has been given in the Act has that meaning, and unless the context otherwise indicates -

“additional qualification” means an additional qualification prescribed under section 31(1)(a) of the Act;

“applicant” means a person making an application in terms of these regulations;

“certified” means certified as a true copy of the original by a commissioner of oaths appointed under section 5, or designated under section 6 of the Justices of the Peace and Commissioners of Oaths Act, 1963 (Act No. 16 of 1963);

“clinical experience” means experience required and included as part of a training in which the medical practitioner provides or observes direct patient care;

“experience” includes education, tuition and training received at a training hospital;

“medical practitioner” means a person registered as a medical practitioner under the Act;

“pathology” means the study of disease and medical specialities that diagnose disease;

“pathology (anatomical)” means the medical subject which deals with the morphological changes of pathological conditions;

“pathology (chemical)” means the medical subject that deals with the biochemical changes of pathological conditions;

“pathology (clinical)” means the medical subject which deals with the clinical application of the subjects pathology (chemical), haematology and microbiology;

“pathology (forensic)” means the medical subject which deals with the study of the pathology of the effects of physico-chemical agents and the medico-legal and forensic application of pathology (anatomical), pathology (chemical) and basic pathology principles;

“pathology (haematological)” means the medical subject that deals with the study of blood and blood-forming organs, blood groups, blood coagulation and the serological aspects;

“pathology (microbiological)” means the medical subject that deals with the study of bacteriology, serology, virology, parasitology, mycology and immunology;

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

“pathology (virological)” means the medical subject that deals with the study of viruses and the related aspects of general medical microbiology, molecular biology and immunology for the purpose of achieving a comprehensive training in virology;

“specialist” means a medical practitioner in whose name a speciality is registered;

“speciality” means a speciality in one of the branches of medicine referred to in regulation 3;

“sub-speciality” means a subdivision of a speciality in medicine referred to in regulation 10;

“training hospital” means a hospital or other institution -

- (a) approved or recognised by the registering authority inside or outside Namibia of the country in which the training hospital is situated; and
- (b) that provides education, tuition and training to enable a person to be registered as specialist; and

[The article “a” is missing before the word “specialist”.]

“the Act” means the Medical and Dental Act, 2004 (Act No. 10 of 2004).

[The Medical and Dental Act 10 of 2004
has been replaced by the Health Professions Act 16 of 2024.]

Application for registration as medical practitioner

2. (1) An application for registration as a medical practitioner in terms of section 19 of the Act must, in addition to the documents and particulars specified in subsection (2) of that section, be accompanied by -

- (a) a certified copy of the identity document or passport of the applicant; and
- (b) proof to the satisfaction of the Council that the applicant has completed the practical training so prescribed and has met all the requirements prescribed in respect of such practical training.

(2) The Council may require the applicant to furnish proof of the proficiency of the applicant in the English language.

Registrable specialities

3. (1) For the purposes of section 31(2)(b) of the Act, any branch of medicine mentioned in Annexure A is a speciality which may be registered, subject to compliance with these regulations, against the name of a medical practitioner.

(2) The Council may register a medical practitioner as a specialist under section 31(2)(b)(i) of the Act, if -

- (a) the applicant’s standard of education, tuition and training provided by an educational institution in respect of a post-graduate qualification relating to a speciality referred to in subregulation (1) complies with the provisions of these regulations; and

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

- (b) the post-graduate qualification referred to in paragraph (a) entitles the applicant to register as a specialist in the country or member country where he or she obtained the qualification.

Application for registration of speciality

4. (1) An application under section 31(2)(b) of the Act by a medical practitioner to have a speciality entered against his or her name must, in addition to the documents and particulars specified by subsection (3) of that section, be accompanied by -

- (a) a certified copy of the degree or diploma obtained from an educational institution -
 - (i) as listed in the “World Directory of Medical Schools” of the World Health Organisation or any other examining authority recognised by the Council or
 - (ii) mentioned in Annexure B or any other examining authority recognised by the Council,

and which qualification is -

- (aa) of a standard acceptable to the Council; and
- (bb) related to the speciality concerned,

[The comma at the end of subparagraph (bb) should be a semicolon.]

- (b) a certified copy of registration certificate as a medical practitioner or proof that the applicant is qualified to be registered as a medical practitioner in Namibia as provided by regulation 2;

[Some words appear to be missing before the phrase “registration certificate”; the intention may have been to refer to “the registration certificate” or “the applicant’s registration certificate”.]

- (c) proof that the applicant has practised as a medical practitioner for a period of not less than five years before submitting his or her application to the Council;
- (d) if the applicant is registered as a specialist in a country other than Namibia, proof of the post-graduate qualification which entitles the applicant to register in that country as a specialist in the branch of medicine applied for by the applicant;
- (e) proof that the post-graduate qualification referred to in paragraph (d) is a qualification prescribed for specialist registration in the branch of medicine applied for by the applicant; and
- (f) proof of compliance with subregulation (3).

(2) A speciality from an educational institution not specified in Annexure B or “World Directory of Medical Schools” may be entered against the name of the applicant in the register if the requirements of section 31(5) of the Act have been complied with to the satisfaction of Council.

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

(3) The following minimum requirements, including the education, tuition and training and the passing of all examinations relating to the education, tuition and training apply to the following specialities -

- (a) for the specialities anaesthesiology, dermatology, medical genetics, diagnostic radiology, medicine, family medicine, neurology, neurosurgery, nuclear medicine, obstetrics and gynaecology, occupational medicine, ophthalmology, orthopaedics, otorhinolaryngology, paediatrics, paediatric surgery, physical medicine (sport and exercise medicine), plastic and reconstructive surgery, psychiatry, radiation oncology, surgery, emergency medicine and urology, clinical experience of not less than four years in a clinical appointment in that speciality at a training hospital;
- (b) for the speciality community health, not less than four years education and clinical experience in a clinical appointment in that speciality at a training hospital;
- (c) for the speciality cardiothoracic surgery, clinical experience of not less than six years in a clinical appointment in that speciality at a training hospital;
- (d) for the speciality public health medicine not less than four years education, tuition and training in all the subjects of public health under the supervision of the relevant department dealing with public health medicine at an educational institution recognised by the Council;

[There should be a comma after the phrase “for the speciality public health medicine”.]

- (e) for the speciality pathology (clinical), if no other speciality in pathology is registered in the name of a medical practitioner, not less than four years education and clinical experience in pathology (chemical), pathology (haematological) and pathology (microbiology) at a training hospital;
- (f) subject to paragraph (g), for the speciality pathology (anatomical), pathology (chemical), pathology (forensic), pathology (haematological), pathology (microbiological) or pathology (virological), if no other pathology speciality is registered in the name of the medical practitioner, not less than four years clinical experience in the pathology specialisation for which he or she intends to register, at a training hospital, and for the speciality pathology (anatomical) the four years education and clinical experience must also include the equivalent of six months experience in cytology and the applicant must pass the examination relating to cytology;
- (g) if the speciality pathology (clinical) is registered in the name of a medical practitioner who applies for -
 - (i) the speciality pathology (anatomical) to be registered in his or her name, not less than three years education and clinical experience, in pathology (anatomical), at a training hospital which must include the equivalent of six months experience in cytology and the applicant must pass the examination relating to cytology;
 - (ii) any of the other pathology specialities to be registered in his or her name, not less than two years education and clinical experience in that pathology speciality at a training hospital;

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

- (h) subject to paragraph (i) and paragraph (j), if any of the specialities pathology (forensic), pathology (chemical), pathology (haematological), pathology (microbiological) or pathology (virological) is registered in the name of a medical practitioner who applied for any other pathology specialities or the speciality pathology (clinical) to be registered in his or her name, not less than two years education and clinical experience in the pathology specialisation he or she intends to register at a training hospital;
- (i) if any of the specialities pathology (chemical), pathology (haematological), pathology (microbiological) or pathology (virological) is registered in the name of a medical practitioner who applies for the speciality pathology (anatomical) to be registered in his or her name, not less than three years education and clinical experience in that pathology speciality at a training hospital and the experience must include the equivalent of six months experience in cytology and the applicant must pass the examination relating to cytology; and
- (j) if the speciality pathology (forensic) is registered in the name of a medical practitioner who applies for the speciality pathology (anatomical) to be registered in his or her name, not less than three years education and clinical experience in pathology (anatomical) at a training hospital and the experience must include the equivalent of six months experience in cytology and the applicant must pass the examination relating to cytology,

to the satisfaction of the Council.

(4) For the purposes of subregulation (3), the Council may recognise experience gained in the following circumstances -

- (a) if in the opinion of the Council, a medical practitioner has gained satisfactory experience for a period of at least two years in a speciality that he or she applies for registration in his or her name and the experience is acquired at a training hospital, the Council may recognise -
 - (i) a maximum of 12 months specialist training; or
 - (ii) if the medical practitioner has less than two years of experience, a proportional period of that training;
- (b) in addition to any period recognised under paragraph (a), but not exceeding a period of 12 months in total, experience gained by a medical practitioner or as a post graduate student, in a manner acceptable to the Council -
 - (i) in a training hospital or any other institution recognised by the Council as affiliated to an educational institution;
 - (ii) in a training hospital and an educational institution recognised as a satellite teaching department of that educational institution;
 - (iii) as the holder of a clinical appointment, that the Council considers appropriate, in a training hospital or institution referred to in subparagraph (i) or (ii); and

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

- (iv) in a field of study that the Council considers to be related to the speciality which the medical practitioner or post graduate student applied for registration.

[The term “post-graduate” is missing a hyphen in every appearance in paragraph (b).]

(5) The following conditions apply to the recognition of any period of experience required in terms of subregulation (3), experience gained -

- (a) in Namibia may only be recognised by the Council if throughout the period that the experience is gained, the applicant was registered as a medical practitioner or as post-graduate student with the Council; or
- (b) in a country other than Namibia may only be recognised by the Council if throughout the period that the experience is gained, the applicant was registered as a medical practitioner or as post-graduate student with the registration authority responsible for the registration of persons to practise as a medical practitioner or as a post-graduate student in that country.

[In both paragraphs (a) and (b), the word “a” appears to have been omitted before the phrase “post-graduate student”. Alternatively, these paragraphs would be grammatically correct if the word “as” were omitted before that phrase.]

(6) Any experience in a speciality at a training hospital for less than six months or relating to the pathology specialities for less than four months is not recognised by the Council unless -

- (a) a period of less than six months or less than four months is required for the completion of the experience required under this regulation; or
- (b) the medical practitioner or post graduate student, with the written permission of the training hospital, varied his or her training by receiving training in training positions in various medical faculties in the discipline to the satisfaction of the Council.

[The term “post-graduate” is missing a hyphen.]

Limitation on practising of speciality

5. A specialist must confine his or her practice to the speciality registered in his or her name.

Commencement of speciality practice

6. A specialist who commences with his or her speciality practice must in writing inform the registrar within 30 days after the commencement of the speciality practice of the -

- (a) physical address where the speciality practice is being conducted; and
- (b) postal addresses, telephone numbers, facsimile numbers and e-mail addresses of the specialist.

Change of name or cessation of speciality practice

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

7. A specialist who changes his or her name or surname or discontinues to practise a speciality must notify the registrar in writing of the change or the cessation of the speciality practice. Within 30 days after the change or cessation.

[The word “as” appears to have been omitted in the phrase “to practise as a specialist”. It also appears that the closing phrase “within 30 days after the change or cessation” was intended to be part of the preceding sentence.]

Conditions applicable to practising of speciality

8. (1) A specialist may charge fees for conducting examinations or procedures relating to his or her patients, if the examinations or procedures form part of his or her scope of practice or are generally accepted practice in the speciality for which the specialist is registered.

(2) The specialist must inform and explain to the patient any fees charged under subregulation (1) in respect of the examinations or procedures conducted by the specialist.

(3) The examinations and procedures referred to in subregulations (1) and (2) must be conducted only for the benefit of the patients of the specialist medical practitioner.

(4) A specialist may treat a person who consults him or her directly without a referral by a medical practitioner or other specialist.

(5) A specialist who treats a patient referred by a medical practitioner must keep the medical practitioner who referred the patient reasonably informed of the medical condition and management of the patient.

Registrable sub-specialities

9. (1) The sub-specialities specified in Column 2 of Annexure C may be registered as sub-specialities of the specialities opposite in Column 1 of that Annexure, in the name of the specialist under section 31(1)(b) of the Act.

(2) A sub-speciality not specified in Annexure C may be entered against the name of the applicant in the register if the requirements of section 31(5) of the Act have been complied with to the satisfaction of the Council.

Application for registration of sub-speciality

10. (1) An application by a specialist to have a sub-speciality entered against his or her name in the register, in addition to the documents and particulars specified by section 31(3) of the Act, must be accompanied by proof to the satisfaction of the Council that the specialist has at least two years clinical experience in the particular sub-speciality as the incumbent of a clinical position in a training hospital.

(2) A specialist who has not practised that sub-speciality for the period referred to in subregulation (1) must satisfy the Council, in the manner that the Council determines, that he or she possesses the skills or the knowledge necessary to practise his or her sub-speciality before the sub-speciality is entered against his or her name in the register.

(3) The requirements of subregulation (2) must include a period to be determined by the Council, not exceeding two years, which the specialist spent, with the prior written approval of

REGULATIONS
Health Professions Act 16 of 2024

Regulations relating to Registration of Medical Practitioners, Qualifications that may be Registered as Specialities and Maintaining of Registers of Medical Practitioners

the Council, as a holder in the position of a clinical assistant or an equivalent position in a training hospital in Namibia.

Register of medical practitioners

11. The register of medical practitioners established and kept in accordance with subsection 23 of the Act must, in addition to the particulars specified by subsection (3) of that section, contain particulars of -

- (a) the specialities, sub-specialities or additional qualifications entered in the name of the medical practitioner in accordance with section 31(4) of the Act; and
- (b) any change in any of the particulars recorded in the register.

Restoration of names to register

12. An application made in accordance with section 25 of the Act for the restoration of the name of a person to a register must, in addition to the documents and information referred to in subsection (2) of that section, be accompanied by -

- (a) the original registration certificate issued under section 20(4)(b) of the Act in the name of the applicant or if for any reason the original certificate cannot be submitted proof to the satisfaction of the Council that the applicant was registered; and
- (b) a certified copy of the identity document or the passport of the applicant.

Application for registration of additional qualifications

13. (1) An application made by a medical practitioner in terms of section 31(2)(a) of the Act to have an additional qualification entered against his or her name, in addition to the documents and particulars specified by subsection (3) of that section, must be accompanied by proof to the satisfaction of the Council that the applicant is registered as a medical practitioner in Namibia and the applicant is the holder of the additional qualification.

(2) The application referred to in subregulation (1) must also be accompanied by proof to the satisfaction of the Council that the registration authority responsible for the registration of persons as medical practitioners in the country where the applicant obtained the qualification recognises that qualification as an additional qualification.

Registrable additional qualifications

14. (1) Subject to subregulation (2), the additional qualifications which may be entered against the name of a medical practitioner are those specified in Annexure D and which have been issued by the institution specified in respect of the qualifications concerned in that Annexure.

(2) An additional qualification not specified in Annexure D may be entered against the name of the applicant, in the register, if the requirements of section 31(5) of the Act have been complied with to the satisfaction of the Council.
